PROFESSIONAL EXPERIENCE

Developer Intern — Mintomax Solutions, Madurai, Tamil Nadu

Dec 2025 – Jan 2026

- Gathered and analyzed technical requirements to support 3+ application modules, aligning deliverables with project timelines.
- Documented development processes and functional specifications; diagnosed and resolved technical issues to improve application quality.

IoT Intern — KV Technology Services, Madurai, Tamil Nadu

Jun 2025 – Jul 2025

- Analyzed end-user requirements and translated them into a real-time Smart Motion Detection Camera System using ESP32-CAM and PIR sensors.
- Tested and optimized system performance, delivering a functional, low-cost surveillance prototype ahead of schedule.

PROJECTS

UGV Rover – Defence Surveillance (Rudhra X)

Feb 2026 – Apr 2026

- Led requirement analysis and design for a multi-application Unmanned Ground Vehicle with wireless control and live-monitoring for remote surveillance and rescue operations.

Smart Motion Detection Camera System (IoT)

Jun 2025 – Jul 2025

- Designed and implemented a cost-effective, automated surveillance system with real-time alerting using ESP32-CAM and PIR sensors.

EDUCATION

B.Tech, Artificial Intelligence and Data Science

2027 (Expected)

AAA College of Engineering and Technology, Virudhunagar, Tamil Nadu | CGPA: 8.04 / 10

Higher Secondary Education

2023

SAS Techno School, Trichy, Tamil Nadu | Percentage: 70%
